COMMENT: No intercept was attempted. I checked with the FAA Tower Watch Supervisor, Mr. Duarte, at O'Hare IAP, Ill., and in accordance with the surface wind directions between 0200Z and 0300Z the O'Hare Tower could have been using runways 14R, 9 or 22 for landings. He also stated that there are 1 or 2 Grumman C-159 "Gulfstream" aircraft (Jet-Prop) based at O'Hare with "3 white discharge lights" (or position lights) on the bottom of these aircraft.

It is the undersigned's evaluation of this report, in light of the above information, that Mrs. Wolf saw and heard one of these aircraft making an approach for landing at O'Hare. This theory would fit neatly with the sounds heard, lights seen and the approach procedures used around O'Hare.

Dear Mr. [redacted]

While watching T.V. last night, I noticed something
strange and I have the following to report.
This will help explain what it would have been, for this was
quite a quite sight. I'll leave the C.H. to the
P.M. and this didn't sound like any plane that I've
seen or heard. (including helicopters)

Time: Monday, August 23, 1965, 9:00 P.M.

Place: Wood Dale, Ill. (a western suburb of Chi-
cago)

Description: At first there were TWO lights, not
moving in the air. I thought it was
a street light, but when I moved to
the door to take a closer look, it
started to move. While it moved, it
had THREE lights, all of which were
white, and all of which were blinking
on and off constantly until it dis-
appeared beyond some trees. I noticed
no other thing about it but the lights.

Height: The object was higher than the trees but
was lower than any normal plane could fly.

Sound: It had a low motor sound, but didn't sound
like an airplane.

Speed: Speed was slow, like a small plane. It
didn't start up fast or increase much
at all.

Direction: It was flying in a southerly direction, go-
ing in a south east direction.

That's about all I can tell you, except that while it
was standing still it had no sound. When it did start to
move, I did hear a low sound.

This is a true report of what I saw. Thank-you for
your interest.
